The City Council provided feedback, including:

- Support for developing an internal list identifying decision-making/deliberative regional committees versus the more informational committees using Councilmember experience. Include time commitment.
- Current system of Councilmembers providing preferences for which regional committees to serve on is working well
- Focus on transportation and transit decision-making bodies is important
- The City is currently represented on many important boards

**ADJOURNMENT**

There being no further business, the meeting was adjourned at approximately 9:09 PM.
